RADIATION BELT - This cross-cut diagram is an artist's conception of how a band of high-energy electrons (black area) follows the earth's magnetic equator, forming a new high-intensity radiation belt around the globe. The new belt is a result of the high-altitude nuclear device set off by the United States in the mid-Pacific on July 9. The new belt merges in its upper reaches with the Van Allen belt of natural radiation (shaded areas). The

atomic particles in the new belt and the X-Rays produced by them, could be a menace to any spaceman flying through them, unless they were suitably shielded the Defense Department and the Atomic Energy mission said today. The statement indicated th States seeks now to determine whether the ne delay or otherwise impair the country's Mey aut program.

Boys Taken From Rocks By Firemen

a height of 100 feet on the high rock of the Cathedral Spires group in the Garden of the Gods and could not get down were rescued by members of the Colorado Springs fire department Monday

They were Steve, 10, and Nor man, 17, sons of Mr. and Mrs. George B. Muray, 404 Columbia The fire department was called at 8:26 p.m. by the park police. Steve and Mury had fallen part way down and suffered a sprained ankle an arm injury and an abrasion on the head. He was taken in an ambulance to Penrose Hospital.

Four firemen, Deputy Chief A. N. Cummings, Lloyd Williams, James Whale and Harold Townsend, climbed the rock, without use of ladder or ropes. After carrying the injured boy to the base of the rock they assisted the other boy, who had climbed so high he was afraid to come

The Muray family had previously resided in Colorado Springs and had recently returned to the city. Quite a number of people watched the rescue operations. The parents of the

Podiatry Meet On Feet Never Gets Above Ankle

WASHINGTON (UPI)-In some respects, the American Podiatry Association's convention here was ike any other convention.

They had exhibits, speeches awards luncheons and that sort of thing. What made it different was that the delegates spent all of their time talking about feet. Can you imagine five days in which the conversation never got above the ankle? I don't know

how they stood it. I spent about an hour browsing around the convention headquar ters and came away feeling tha I never wanted to see another pair of feet. Not even my own But if you can tolerate feet podiatry apparently is a good profession to be in. Most people have foot troubles of one kind or another, so business usually is booming

Hear Many Papers

The 1,000 podiatrists who tended the convention heard p pers delivered on everything fro telangectasis to ingrown toenail I mean the joint was real

One of the papers was presen ed by Capt. Rupert Strvers, chief podiatrist at the U.S. Milita-Academy, who made a study of foot troubles at West Point He found that almost half the cadets he examined had foo ailments and that 54 per cent of the conditions, give or take a fall en arch or two, stemmed fro

Colorado, Inis gust, A.D., 1962 Dee J. Hankins Mayo

All ordinances and/or parts of ordinances in conflict herewith are hereby repealed, upon the effective date of this ordinance.

Passed this 17th day of August.

A.D. 1962, and ordered published in the Colorado Springs Gazette Feiegraph, a newspaper of gentral circulation in the Town of countain, Colorado.

On motion duly adopted, it is ordered that said ordinance be numbered 291 and, after approval by the Mayor, be published and percent according to law.

DEE J HANKINS

Mayor

Town Clerk
STATE OF COLORADO

COUNTY OF EL PASO

STOWN OF FOUNTAIN

CERTIFICATE

I hereby certify that the foregoing Ordinance, entitled "An Ordinance Relating to Salaries of the Mayor and Members of the Board of Trustees of the Town of Fountain, County of El Paso.

Colorado," was duly passed at a regular meeting of the Board of Trustees of the Town of Fountain.

Colorado, held on the 17th day of August, A.D., 1962

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the Town of Fountain.

Colorado, this 17th day of August, A.D., 1962

"I came across this big hole in because they are too soft and they Craft, Medium) have higher deck he ground in the woods and start-could not stand the hardship." Lt. houses, more armor-plate, extra ed walking around it, peering Thong said. "We use only fisher-communications equipment and down. All of a sudden the edge men, because they are rugged they mount 22-mm guns at stern gave way and I fell 50 feet to the and dependable."

After recovering from the initial these fishermen and had him peel new guise. shock, Becker looked for a hald off his undershirt to show me. At the shipyard, the main ene on the shale and slate walls to enable him to climb out but found one. Then he started shouting

for help. When darkness fell, he gave that up and made himself a prim tive bed out of brush that had fallen into the pit. "But I couldn't sleep very much

because it got pretty cold," he said. "It must have fallen to about 50 or less and I only had light rousers and a T-shirt." Friday, Saturday and Sunday

ook a long time to pass. "Every time I heard, or thought heard, the faintest noise, I'd

start shouting again-but nobody came to the remote area," Becker

He had no food. For water he took the batteries out of his flashlight case and used it to gather ground drops that filteredudown

he sides of the pit. With the hope that smoke might attract attention, Becker tore up papers from his billfold and sarted a fire. But he soon had to stamp it out because, with no ventilation, the fumes began to

choke him. Early Monday the vacationing Pete Ptacek family from Phoenix, Ariz., stopped in the area to let their youngsters exercise. Becker, with his now very hoarse throat,

eard themiand called out. Ptacek hurried to a cabin reort near the lake for help.

Two forestry men, a rancher and Ptacek returned to the pit with a rope, and with it tied around his waist Becker made his way up the sheer wall. "All I could think of all the tim

was how my ma would be torn p if anything happened," said the airman. "Yes, and I made some bargains with God-but I always thought I'd be rescued and that confidence helped me along."

How to add years to your life

100 years ago the average American could expect to live about 40 years. Today-about 70. Modern sanitation, diet,

drugs and medical practice have added 30 years to our life

span. And note that 70 is average. Many die sooner, Many

live longer. You up your chances of being a "longer" if you
